

**1 in 3**  
U.S. teens will  
experience abuse  
from someone they're  
in a relationship with  
before they become  
adults.

# HELP TEENS KEEP RELATIONSHIPS HEALTHY

541 E. 8th Street, Loveland, CO 80537  
970-669-5150

# Communicate

Post signs in school restrooms and hallways to educate students on what a healthy relationship looks like and to let them know help is available.

Share information like red flags through school communication such as the school paper.

Include teen dating violence in a health or physical education class.

# Educate

Alternatives to Violence (ATV) staff members give age-appropriate presentations to school districts on dating violence, sexual harassment, domestic violence and personal safety.

We are also happy to provide materials, such as posters and brochures, to schools.

# Participate

Schools are welcome to volunteer at ATV, or call us to discuss ways they can learn more about dating violence - especially if they think they or a friend might be experiencing it.
